DID YOU KNOW?

Over the last 60 years, at least 40 percent of all internal conflicts have been linked to the exploitation of natural resources, whether high-value resources such as timber, diamonds, gold and oil, or scarce resources such as fertile land and water.

By the year 2030, an estimated 50 per cent of the world's population will live in coastal areas exposed to flooding, storms and tsunamis

In the average lifetime, all of the human skin on one's body replaces itself 900 times

Today, 2.6 billion people, about one-third of the population on the planet, do not have access to proper sanitation, a problem that kills nearly 1 million young children every year.

According to the World Health Organization, about 350 million people in the world have diabetes. The organization expects this number to double in the next two decades.

IT'S BEEN SAID:

Equipped with his five senses, man explores the universe around him and calls the adventure Science. – Edwin Powell Hubble, American astronomer and cosmologist.

Television is a medium because anything well done is rare. - Fred Allen, American comedian and radio show host.

- 🕒 What is at stake is nothing less than the survival and well-being of a generation of innocents. - Antonia Guterres, UN High Commissioner for Refugees

NOVEMBER QUOTES:

"In November, the smell of food is different. It is an orange smell. A squash and pumpkin smell. It tastes like cinnamon and can fill up a house in the morning, can pull everyone from bed in a fog. Food is better in November than any other time of the year."

Cynthia Rylant

November wind has a sound different from any other. It is easy to imagine the cave of the winds in some mythical Northland where the winds are born and the gods send them out to conquer the quiet air.

Gladys Taber

KUC CONVERSATIONAL MEETING:

After the service on Sunday, November 3rd, there will be the third conversational meeting of 2019 for Kinmount United Church. Please plan to stay and take part in this dialogue.
